

IN THE CLAIMS

Please amend the following claims. Marked up versions with addition underlined and deletions in brackets are in Appendix A

B1 1. (Amended twice) An integrated light and accessory assembly for a motor vehicle, comprising:

- an insulator;
- at least one reflector mounted on said insulator;
- at least one conductor mounted on said insulator;
- at least one lamp connected to said at least one conductor and assembled inside said at least one reflector;
- at least one control module mounted on said insulator and connected to said at least one conductor; and
- a housing, enclosing the insulator, the at least one reflector, the at least one conductor, the at least one lamp and the at least one control module,

wherein the lamp and the reflector are adapted to provide illumination, and the control module is adapted for controlling or supplying power to the at least one lamp.

B2 14. (Amended twice) An integrated light and accessory assembly for a motor vehicle, comprising:

- an insulator;
- at least one reflector mounted to said insulator;
- at least one conductor mounted to said insulator;
- at least one lamp connected to said at least one conductor and assembled inside said at least one reflector;
- an electronic module mounted on said insulator and connected to said at least one conductor; and
- a housing, enclosing the insulator, the at least one reflector, the at least one conductor, the at least one lamp and the electronic module,

wherein the lamp and the reflector are adapted to provide illumination, and the electronic module is adapted for controlling or supplying power to the at least one lamp.
